DRIVERS, START YOUR ENGINES

Spend half a day at the circuit on this course and you will experience the excitement of driving two of Maserati's most powerful models around a motor racing circuit: the Ghibli Trofeo and the Levante Trofeo, both powered by a 580bhp turbocharged V8 engine.

With the support of a professional team of instructors, you will learn how to master the car and enhance your driving skills in a safe and structured environment.

The hot lap onboard the pure racer GranTurismo MC GT4, driven in race mode by a professional driver, will close your day on track.

PROGRAM

- 11.45am** Welcome to the track and registration of participants.
Essential theory session focused on:
- Driving seat position and correct use of the car's controls
 - Racing lines
 - Braking procedures
 - Visual targeting
- 12.30pm** Buffet lunch at the circuit restaurant
- 1.45pm** Warm up sessions: start of dynamic activities
Demonstration lap with a professional driver, followed by each participant's first driving session. Circuit familiarization: braking zones, racing lines, points of acceleration out of corners.
- 2.30pm** Split of participants into 3 groups. To minimize waiting time, activities take place on a rotational basis.
Three driving sessions per driver, with onboard video recording for later analysis. This allows the instructor to monitor how well the exercises have been carried out and to evaluate the participant's progress.
Power oversteering on a low-grip surface: after a demonstration by the instructor, each participant learns the art of skid control on a wet oval course without the use of electronic aids.
Hot laps onboard the GranTurismo MC GT4, driven by a professional driver: two thrilling laps in a pure race car give the participant the ultimate insight into the car's awesome racetrack performance.
- 5.30pm** End of dynamic activities: farewell and certificates ceremony

We look forward to seeing you at the track:
Autodromo Riccardo Paletti, Strada per Fosio, 1 43040 Varano de' Melegari (PR), Italy.
