You're Not Like *Everyone Else*

Bold and *Elegant*

The Maserati Ghibli offers something very different in a world of business-like conformity. As you would expect of a luxury sports sedan, there's soothing comfort and effortlessly intuitive technology. The attention to detail, style and quality, reveal the very essence of the Maserati. Whatever your choice, whatever your ambition, the Maserati Ghibli always has a uniquely inspirational answer.

The first Maserati Ghibli was designed by Giorgetto Giugiaro and unveiled at the Turin Motor Show of 1966. Giugiaro, then in his 20s, was considered a design prodigy. And rightly so. His creation, with its 2+2, fastback format, pop-up headlights and audacious shark-nosed profile was an instant hit and became an automotive design icon.

The latest Ghibli model carries on the spirit that shaped its first incarnation in 1966. That means exclusive luxury, glorious style, progressive technology and of course, empowering performance.

An *Enduring* Legacy

V8 Engine - *Ghibli Trofeo*

A core offering of all Maserati vehicles is the ability to deliver a dynamic, yet refined drive at high speeds.

With the Ghibli, the **power** that achieves this comes from a **choice of V6 or V8** petrol engines, and a **hybrid version.**

Endless possibilities

V6 Engine - *Ghibli Modena, Ghibli Modena S*

L4 Engine - *Ghibli GT Hybrid*

Three new trims for a *unique encounter*

Three exclusive new trims have been introduced as part of the new 2022 Ghibli Range. In terms of style, the new **GT, Modena and Trofeo** trims introduced a **new Maserati logo** on the bonnet and a **new specific badge for each trim version** placed just above the three iconic side air vents. At the rear, the traditional saetta logo has been replaced by a new Trident logo on the C-pillar, while a new Maserati script takes stage on the trunk.

GT

The GT trim elegantly underlines the original Maserati grand touring philosophy and embodies the Brand's more urban and contemporary spirit. For Ghibli, this means travelling at high speeds in absolute comfort.

Modena

Inspired by our home city, the land of fast cars. With the Modena trim, the Ghibli sporty character takes centre stage.

Trofeo

The fastest Ghibli to express your boldest self. The coupé look of the Ghibli is intensified by race-inspired design elements putting the focus on performance, without sacrificing comfort.

The Ghibli *Collection*

One choice, many possibilities to distinguish yourself.

Ghibli - *Grille*

Whatever your choice or ambition, Maserati Ghibli always offers a **uniquely inspirational answer.**

Ghibli delivers the comfort you'd expect in a **luxury sports sedan** — yet it distinguishes itself with razor-sharp, sports car handling. This balance, a signature of Maserati, is a source of endless inspiration — whether you're heading to the office or breaking loose for an exhilarating drive. Ghibli is available in **three new exclusive trims: GT, Modena and Trofeo.** Each can be comprehensively equipped according to your desires. With the GT trim, the emphasis is on luxury and comfort, while Modena and Trofeo trims center on engaging driving dynamics.

The natural world is full of moments where a single spark evolves into something new – an instant where hybridization acts the catalyst for change. From the same inspiration comes the new Maserati **Ghibli GT Hybrid:** the first in a line of new vehicles, at the vanguard of a **new Era for the Brand.** The Ghibli GT Hybrid ignites **Maserati's future** without betraying the past. The first hybrid engine in the history of the marque, where innovation and technology have always met with high performance automotive engineering, to drive Maserati forward towards a more sustainable future. Faster than diesel, greener than gasoline: the Ghibli GT Hybrid philosophy in a nutshell.

High-Powered Luxury

Q4 Intelligence all-wheel Drive System:
The Q4 intelligent all-wheel drive system - available for the Modena trim - keeps performance and comfort at their best even when road conditions are far from ideal. The sophisticated algorithm developed by Maserati continuously monitors dynamic inputs such as wheel speed, steering, yaw angle and even wheel grip versus driving style. The Q4 system uses this data to instantaneously establish a dedicated grip profile for each individual wheel. This ensures optimum dynamics for any given road condition, at any time.

Air Quality Sensor:
The Ghibli is equipped with an intelligent sensor paired with a signal analysis system that calculates the external pollution levels and prevents polluted air and toxic gases from entering the cabin, improving the comfort of everyone onboard.

Soft Close Doors:
The standard Keyless Entry function enables you to open the doors or boot via the handles, without touching the key fob. Soft Close Doors securely, effortlessly and silently close doors left slightly ajar, increasing the car's safety and comfort, particularly for children in the back seat.

Phone recharger:
The system allows to charge the battery of the smartphone by placing it on the dedicated area, without having to connect it to the charging port through a cable. Additionally, next to the Wireless Charger the driver and passenger will also find two USB ports, that will allow both charging and data sharing with the infotainment system.

MIA (Maserati Intelligent Assistant):
Powered by Android Automotive OS, the new generation MIA offers an innovative and personalized user experience. The frameless 10”1 HD touch screen with a ratio of 16:10 carries a new graphic interface. The display features an elegant, curved glass edge: a first in automotive design of its kind.

Wi-Fi vehicle hotspot:
The Wi-Fi option is another welcome touch when you’re on the move in the Ghibli. Simply place a SIM card into the router to access internet signals inside the car. Up to three devices can be connected at the same time.

ZF eight-speed automatic transmission:
The sophisticated ZF eight-speed automatic transmission in the Maserati Ghibli puts its engine power under your complete control. Its advanced design ensures precise gear changes and optimum performance. Thanks to auto-adaptive software, the transmission modifies its shift patterns according to driving style, for an even more rewarding, one-to-one driving experience. And when it comes to long, high-speed journeys, the last two gears, seventh and eighth, are specially calibrated to reduce fuel consumption and further increase comfort.

Folding rear seats:
Need to safely store the ski or snowboard bag? The 60/40 split-folding rear seats provide cargo-carrying versatility. When the seat on the smaller side is completely folded down, you will have a continuous nearly-flat extension of the load floor in order to accommodate large-sized equipment and objects.

Italian craftsmanship:
Open the door of the Maserati Ghibli and a combination of elegant Italian style, the finest materials – like the PELLETESSUTA upholstery made by Ermenegildo Zegna, a Maserati exclusive that will become part of the Fuoriserie program starting from January 2022 – and hand-crafted finishes will arouse all your senses.

All leather is not created equal. Full grain Pieno Fiore natural leather offers an extraordinary softness to the touch and is considered unrivalled in terms of quality and durability. Available in all Maserati Ghibli versions, this exclusive leather is highly desirable for its subtle texture, natural aroma and its ability to take on a beautiful patina over time. Sourced exclusively for Maserati, the leather selected for the seats of the Ghibli has been carefully selected from twelve different varieties; all compelling in their own right.

Your Maserati *connected to you*

Master the essence of performance, comfort and safety to transform every journey into a unique and thrilling experience. Intuitively and intrinsically linked from the app to the vehicle, Maserati Connect will seamlessly link your car to your habits and needs, leaving you free to enjoy driving at its best.

Remote Services:
The Maserati Connect App displays fuel level, tyre pressure, odometer, oil-life, and vehicle health report card including checks for Powertrain, Brakes & Suspension, Oil & Fluids, Safety systems and Lights. Every information is updated on the last key off.

Amazon Alexa:
Alexa can help you play music, get directions, place calls, check the calendar, play audiobooks, control your smart home from the car, and more, with just your voice – so you can keep your hands on the wheel and eyes on the road.

Home to Vehicle:
You can use Maserati Connect skill for Alexa, as well as the Google Assistant action, to interact from home with the vehicle. The service enables to ask about the vehicle status, and send a destination to the vehicle's navigation system (Send & Go).

Advanced Driving *Assistance System*

The Ghibli is equipped with an impressively comprehensive range of Advanced Driving Assistance Systems. It means even greater peace of mind, whether you're on an exclusive grand tour or a dash through the city.

Traffic Sign Recognition
What if your car could alert you about the speed limit sign you just passed? The Traffic Sign Recognition comes in handy for monitoring different types of sign: speed limits, temporary speed limits and overtaking restriction zones.

Highway Assist System (HAS)
Ever imagined you could combine the virtues of Adaptive Cruise Control with the Lane Keeping Assist? The Highway Assist System (HAS) is a level 2 autonomous driving system, designed to help you steer, accelerate, brake and keep your vehicle in its lane, especially when you're driving on highways or limited access freeways.

Lane Keeping Assist (LKA)
Want to make your highway and freeway drive safer? The Lane Keeping Assist (LKA) is a safe driving feature that is designed to identify lane markings and initiate a steering maneuver in order to prevent unintentional lane crossings. A car safety feature that you definitely have to look out for.

Lane Departure Warning System
Thanks to a camera in the rear-view mirror that monitors road markings ahead, the Lane Departure Warning system helps the driver keep the vehicle in the chosen lane on motorways and main roads. This reduces lane drift and the possibility of lateral collisions by providing a warning when the vehicle crosses lane markings without signalling. Activation of the turn indicator overrides the system.

Active Blind Spot Assist
Need some help to look over your shoulder electronically? The Active Blind Spot Assist (ABSA) detects vehicles entering your side and rear blind spots when changing lanes, overtaking and parking. It's a driving safety feature that will help you face one of the biggest perils of the road.

Surround View Camera
This provides a clear 360° view around the car, helping with parking and highlighting otherwise hidden obstructions. Images are captured by two cameras beneath the door mirrors plus front and rear cameras and shown on the main display screen.

Adaptive Cruise Control with Stop and Go
Need more driving comfort with enhanced security when driving on highways and freeways? The Adaptive Cruise Control (ACC) with Stop and Go adjusts your speed to maintain the preset distance from the vehicle ahead. You will feel safer than ever when driving on highways and freeways in limited or moderate traffic.

Forward Collision Warning Plus
Want to feel safer when driving in heavy traffic? Whether it's a rush hour, a big event or a traffic jam, the Forward Collision Warning Plus system reduces the risk of rear-end collisions to prevent or limit vehicle damage.

Rear Cross Path Function
This is a welcome feature that emits a warning when an unseen vehicle is approaching, from the right or left, while reversing out of a parking space.

Front and Rear Parking Sensor and Reversing Camera
To assist with manoeuvring in tight spaces, the Ghibli comes equipped with parking sensors in the front and rear bumpers. In addition, there is an optional rear-view camera, fitted close to the boot lock, that shows a view of what is behind the car on the Maserati display.

Active Driving Assist
Active Driving Assist is an extension of Highway Assist introduced on Maserati range on MY18. This new system is supported on every good road condition, no matter if B-roads urban, extra urban roads or highways.
