

Maserati

Levante

Levante.

The Maserati of SUVs.

Maserati has a history of naming its vehicles after the world's most powerful winds. It started in 1963 with the legendary Mistral. Then came Ghibli, Bora and Khamsin.

In 2016, Levante joined the illustrious Maserati range. The wind that bears its name blows across the Mediterranean and can change from benign calm to gale force in an instant. The Levante SUV has a similar nature, although its powerful forces always remain perfectly under your control.

In true Maserati grand touring tradition, the Levante offers everything you would expect of a Maserati – from snarling responsiveness to effortless long-distance refinement. At the same time, its dramatic SUV proportions are perfectly balanced with graceful lines and muscular forms that convey its dynamic purpose.

The ultimate combination of leading on-road performance and off-road capabilities offers a choice of V6 and powerful V8 petrol engines, including the new hybrid version.

Three exclusive new trims have been introduced as part of the new 2022 Levante Range: GT, Modena and Trofeo.

The GT trim elegantly underlines the original Maserati grand touring philosophy and embodies the brand's more urban and contemporary spirit. The elegant details of this new trim gracefully show what it means to travel in grand style with a Maserati Levante.

The dynamic purpose of the Levante now becomes even more explicit with the Modena trim, while the new Trofeo-specific design elements constantly remind you that performance is a priority.

In terms of exteriors, the three new trims introduced a new Maserati logo on the bonnet and a new specific badge for each trim version placed just above the three iconic side air vents.

At the rear, the traditional saetta logo has been replaced by a new Trident logo on the C-pillar, while a new Maserati script takes stage on the tailgate.

Inside, the new 2022 Maserati Levante Range features a redesigned Trofeo logo on the headrests and the new Maserati lettering on the 8.4-inch frameless HD screen, where the Maserati Intelligent Assistant (MIA) multimedia system will make the driving experience even more intuitive and engaging.

Prepare for exhilarating performance on any terrain, with the elegance and comfort of a prestigious grand tourer. A new journey has begun with the Maserati of SUVs.
