

A close-up view of the front grille of a dark-colored Maserati Levante. The grille features three illuminated blue通风口 on each side. In the center, there is a silver "GT" badge. The background is a dark, starry night sky.

GT

Levante

The new Maserati Levante Hybrid. Performance Charged.

Extraordinary knows no limits. Why should you? The Levante Hybrid is the Maserati of SUVs that raises performance and style to new heights, with enhanced efficiency. Inspiring, electrifying, with the unmistakable Maserati roar.

The hybrid technology in the new Levante is designed to magnify the exhilaration of every adventure you take. Accept no boundaries, pave the way with grand Maserati performance that always takes you further. The Levante Hybrid is 0.9 seconds faster than the Levante Diesel version, covering the 0–100 km/h in 6 seconds, with a top speed of 240 km/h. Mild hybrid technology by name, roaring Maserati power by life.

The Levante Hybrid combines a 4-cylinder, 2 litre engine with a 48V motor delivering a total of 330hp. Combined with the eBooster, it translates to superior dynamic performance to push through any path, whenever you desire.

The timeless style of the Levante, instantly recognisable by its dramatic SUV proportions and graceful lines, is enhanced even further by internal and external details that accentuate the electric spark of its boundless energy. From the modernized oval logo above the front grille, to the striking new Trident on the C pillar and the dynamic new Maserati script on the rear, the restyled logo and badges feature throughout the Levante Hybrid, symbolising our new Era. Seats highlighted in cobalt blue along with assertive, handcrafted finishes adorn the spacious cabin of the Levante Hybrid.

No matter how far you travel, that unmistakable roar of Maserati will always be heard. Because it may be hybrid, but it's still the Maserati of SUVs.
